# Making an Impact

## Individual Impact Connect and Engage

Social Venture Partners Santa Barbara (SVP) offers the opportunity to learn and connect with the nonprofit sector and our community. Partners can apply and develop their skills while strengthening their own network and getting inspired by other Partners. With SVP, Partners give back to the community in a meaningful way and really feel like they are making a difference.

"I have benefitted from becoming more aware of the needs in our community and the organizations and people making a difference....and meeting new friends who are passionate about making a difference together."  
– SVP Partner

"I feel like I get personal development out of it and I like to give back. I feel like I make a difference."  
– SVP Partner

## Organizational Impact Fund and Strengthen Nonprofits

SVP brings the collective expertise of the individuals within our partnership to promising nonprofit organizations. SVP Partners work with these Investees to strengthen their systems and build their capacity to help take their work to the next level.

"The nonprofit sector was a separate world for me. I hadn't ever been involved as a volunteer before SVP. SVP removes the barriers to jumping in and, with a group of other experienced and capable individuals, surrounding an organization with talent to grow its operation at a much more strategic level- not unlike what we do with start-ups."  
– SVP Partner

"We know now what we have yet to learn. We're transitioning to a new level thanks to SVP. We've been able to grow our program in a tough economic climate thanks to SVP."  
– SVP Investee

## Systemic Impact Invest in Collaborative Solutions

SVP is not merely a group of good people giving money to good causes. SVP does more than give away money. Partners invest in collaborative solutions to positively impact our community. SVP is developing a network of engaged Partners, connecting with their community for greater results.

"I wanted to do more than just write a check. I wanted to feel connected. Feel I was making a difference. Social Venture Partner's approach really resonated with me as a business person and as a dad."  
– SVP Partner

While working on solutions to the problems in our community, we are simultaneously part of an international network of philanthropists, entrepreneurs, and change-makers.
